ATHARV RAJENDRA BHOSALE

Mumbai, India • +91 9004160207 • atharvbhosale16@gmail.com • LinkedIn

SUMMARY

BSc-IT graduate specializing in data engineering, with hands-on experience in Azure (ADF, Synapse, ADLS Gen2), Microsoft Fabric, SQL, and PySpark. Built ETL pipelines, data models, and analytics-ready datasets through academic projects and a data-analyst role at Hudl. Seeking a Data Engineering internship / Role to apply cloud pipeline, data modeling, and BI skills to real-world business problems.

TECHNICAL SKILLS

Languages & Querying: Python (OOP, Pandas), SQL (Advanced), PySpark

Cloud & Data Platforms: Azure Data Factory, Azure Synapse Analytics, Azure Data Lake Storage Gen2, Azure SQL Database, Azure Databricks, Cloud Architectures, Cloud Platforms

Microsoft Fabric: OneLake, Lakehouse, Data Warehouse, Data Factory, Notebooks

Data Engineering Concepts: ETL/ELT Logic, Medallion Architecture (Bronze/Silver/Gold), Data Modeling, Dimensional & Schema Design, Slowly Changing Dimensions (SCD), Metadata Management, Data Governance, Batch & Incremental Processing

Tools & BI: Git, GitHub, Power BI, Data Fabric Architectures, Analytics Frameworks

Core Competencies: Data Validation, Data Cleaning, Data Quality Frameworks, Database Design, Query Optimization, Business Intelligence, Data Warehousing

EXPERIENCE

Wyscout Data Analyst | Hudl India Pvt. Ltd. Sep 2025 – Dec 2025

- Tagged and validated match-event data for 100+ matches, maintaining 97% accuracy under tight deadlines.
- Analyzed player and match-performance data to produce structured reports for analysts and coaching staff.
- Validated, cleaned, and cross-checked high-volume sports datasets end-to-end, ensuring data integrity for reporting.

E-Commerce Data Migration using Azure Synapse| Documentation Apr 2026 – May 2026

- Built an end-to-end Medallion Architecture (Bronze/Silver/Gold) pipeline in Azure Synapse for E-COM, ingesting into ADLS Gen2 and SQL Server.
- Built a metadata-driven Bronze layer with Lookup, Filter, and ForEach activities to process multiple source tables dynamically, without code changes.
- Implemented watermark-based incremental loading alongside full-load logic using dynamic SQL and Script activities.
- Engineered the Silver layer with staging tables and stored procedures to clean, deduplicate, and MERGE data into standardized tables.
- Developed the Gold layer by joining 8 Silver tables via stored procedures into a business-ready DimPerson dimension table.
- Applied SCD and dimensional modeling to convert raw operational data into analytics-ready reporting tables.

CERTIFICATIONS

- Data Engineering — Udemy (Oct 2025)
- Data Science — Sathaye College (2022–2024)
- Statistical Data Analysis using MS Excel — Sathaye College (2023–2024)

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)
Sathaye College, Vile Parle, Mumbai | Apr 2022 – Apr 2025
